

PRE CLINICAL RESEARCH ON RENAL SYSTEM

1. Pradère JP, Klein J, Grès S, Guigné C, Neau E, Valet P, Calise D, Chun J, Bascands JL, Saulnier-Blache JS, Schanstra JP. **LPA1 receptor activation promotes renal interstitial fibrosis.** *J Am Soc Nephrol*, **18**: 3110-18, 2007.
2. Maurel A, Spreux-Varoquaux O, Amenta F, Tayebati SK, Tomassoni D, Seguelas MH, Parini A, Pizzinat N. **Vesicular monoamine transporter 1 mediates dopamine secretion in rat proximal tubular cells.** *Am J Physiol Renal Physiol* **292**: F1592-8, 2007.
3. Decramer S, Wittke S, Mischak H, Zürlbig P, Walden M, Bouissou F, Bascands JL, Schanstra JP. **Predicting the clinical outcome of congenital unilateral ureteropelvic junction obstruction in newborn by urinary proteome analysis.** *Nature Medicine* **12**: 398-400, 2007.
4. Bascands JL, Schanstra JP. **Obstructive nephropathy: insights from genetically engineered animals.** *Kidney Int* **68**: 925-37, 2005.
5. Campos MM, Ongali B, De Souza Buck H, Schanstra JP, Girolami JP, Chabot JG, Couture R. **Expression and distribution of kinin B1 receptor in the rat brain and alterations induced by diabetes in the model of streptozotocin.** *Synapse* **57**: 29-37, 2005.
6. Couture R and Girolami JP. **Putative roles of kinin receptors in the therapeutic effects of angiotensin 1-converting enzyme inhibitors in diabetes mellitus.** *Eur J Pharmacol* **500**: 467-85, 2004.
7. Bascands JL and Schanstra JP. **Bradykinin and renal fibrosis: have we ACE'd it?** *J Am Soc Nephrol* **15**: 2504-6, 2004.
8. Narkar V, Kunduzova O, Hussain T, Cambon C, Parini A, Lokhandwala M. **Dopamine D-like receptor agonist bromocriptine protects against ischemia/reperfusion injury in rat kidney.** *Kidney Int* **66**: 633-40, 2004.
9. Schanstra J and Bascands JL. **Experimental ureteral obstruction and knockout animals.** *Arch Pediatr* **10**: 903-10, 2003.
10. Schanstra JP, Duchene J, Desmond L, Neau E, Calise D, Estaque S, Girolami JP, Bascands JL. **The protective effect of angiotensin converting enzyme inhibition in experimental renal fibrosis in mice is not mediated by bradykinin B2 receptor activation.** *Thromb Haemos* **89**: 735-40, 2003.
11. Schanstra JP, Duchene J, Praddaude F, Bruneval P, Tack I, Chevalier J, Girolami JP, Bascands JL. **Decreased renal NO excretion and reduced glomerular tuft area in mice lacking the bradykinin B2 receptor.** *Am J Physiol Heart Circ Physiol* **284**: H1904-8, 2003.
12. Cellier E, Mage M, Duchene J, Pecher C, Couture R, Bascands JL, Girolami JP. **Bradykinin reduces growth factor-induced glomerular ERK1/2 phosphorylation.** *Am J Physiol Renal Physiol* **284**: F282-92, 2003.
13. Guimaraes JT, Vindis C, Soares-da-Silva P, Parini A. **Differential substrate specificity of monoamine oxidase in the rat heart and renal cortex.** *Life Sci* **73**: 955-67, 2003.
14. Pizzinat N, Victorion-Marchal S, Maurel A, Ordener C, Parini A. **Substrate-dependent regulation of monoamine oxidase A expression in rat mesangial cells: involvement of dopamine D2-like receptors.** *Am J Physiol* **284**: F-167-74, 2003.
15. Maurel A, Hernandez C, Kunduzova O, Bompard G, Cambon C, Parini A, Frances B. **Age-dependent increase in hydrogen peroxide production by cardiac monoamine oxidase A in rats.** *Am J Physiol* **284**: H-1460-67, 2003.
16. Kunduzova O, Escourrou G, Seguelas MH, Delagrangre P, De La Farge F, Cambon C, Parini A. **Prevention of apoptotic and necrotic cell death, caspase-3 activation, and renal dysfunction by melatonin after**

17. Kunduzova O, Bianchi P, Parini A, Cambon C. **Hydrogen peroxide production by monoamine oxidase during ischemia/reperfusion in the kidney.** *Eur J Pharmacol* **448**: 225-30, 2002.
18. Kunduzova O, Bianchi P, Escourrou G, Seguelas MH, Parini A, Cambon C. **Monoamine oxidase inhibition regulates MAPK activation, prevents cell death and promotes renal regeneration after ischemia-reperfusion.** *FASEB J* **16**: 1129-31, 2002.
19. Schanstra JP, Neau E, Drogoz P, Arevalo Gomez MA, Lopez Novoa JM, Calise D, Pecher C, Bader M, Girolami JP, Bascands JL. **In vivo bradykinin B2 receptor activation reduces renal fibrosis.** *J Clin Invest* **110**: 371-9, 2002.
20. Cellier E, Duchene J, Pecher C, Alric C, Bascands JL, Schanstra JP, Girolami JP. **B2 receptor activation reduces Erk1 and Erk2 phosphorylation induced by insulin-like growth factor-1, platelet-derived growth factor-BB, and high glucose in rat isolated glomeruli.** *Can J Physiol Pharmacol* **80**: 341-5, 2002.
21. Mage M, Pecher C, Neau E, Cellier E, Dos Reiss ML, Schanstra JP, Couture R, Bascands JL, Girolami JP. **Induction of B1 receptors in streptozotocin diabetic rats: possible involvement in the control of hyperglycemia-induced glomerular Erk 1 and 2 phosphorylation.** *Can J Physiol Pharmacol* **80**: 328-33, 2002.
22. Marin-Castano ME, Schanstra JP, Neau E, Praddaude F, Pecher C, Ader JL, Girolami JP, Bascands JL. **Induction of functional bradykinin b(1)-receptors in normotensive rats and mice under chronic Angiotensin-converting enzyme inhibitor treatment.** *Circulation* **105**: 627-32, 2002.
23. Alric C, Pecher C, Cellier E, Schanstra JP, Poirier B, Chevalier J, Bascands JL, Girolami JP. **Inhibition of IGF-I-induced Erk 1 and 2 activation and mitogenesis in mesangial cells by bradykinin.** *Kidney Int* **62**: 412-21, 2002.
24. Ricci A, Marchal-Victorion S, Bronzetti E, Parini A, Amenta F, Tayebati SK. **Dopamine D4 receptor expression in rat kidney: evidence for pre- and postjunctional localization.** *J Histochem Cytochem* **50**: 1091-96, 2002.
25. Vindis C, Seguelas M.H, Lanier S, Parini A, Cambon C. **Dopamine induces ERK activation in renal epithelial cells through H₂O₂ produced by monoamine oxidase.** *Kidney Int* **59**: 76-86, 2001.
26. Bompert G, Copin N, Djouadi F, Bastin J, Ordener P, Parini A. **Monoamine oxidases in developing rat renal cortex: effect of dexamethason treatment.** *Eur J Pharmacol* **415**: 19-26, 2001.
27. Bascands JL, Girolami JP, Trolly M, Escargueil-Blanc I, Nazzal D, Salvayre R, Blaes N. **Angiotensin II induces phenotype-dependent apoptosis in vascular smooth muscle cells.** *Hypertension* **38**: 1294-9, 2001.
28. Remaury A, Raddatz R, Ordener C, Savic S, Shih J.C, Chen K, Seif I, De Maeyer E, Lanier S.M, Parini A. **Analysis of the pharmacological and molecular heterogeneity of I₂ imidazoline binding proteins using monoamine oxidase deficient mouse models.** *Mol Pharmacol* **58**: 1085-1090, 2000.
29. Vindis C, Seguelas MH, Bianchi P, Parini A, Cambon C. **Monoamine oxidase B induces ERK-dependent cell mitogenesis by hydrogen peroxide generation.** *Biochem Biophys Res Comm* **271**: 181-185, 2000.
30. Schanstra JP, Marin-Castano ME, Praddaude F, Tack I, Ader JL, Girolami JP, Bascands JL, Jeunier B. **Bradykinin B(1) receptor-mediated changes in renal hemodynamics during endotoxin-induced inflammation.** *J Am Soc Nephrol* **11**: 1208-15, 2000.
31. Alric C, Pecher C, Schanstra JP, Bascands JL, Girolami JP. **Bradykinin-induced inhibition of cell proliferation and tyrosine kinase activity in rat mesangial cells.** *Int J Mol Med* **5**: 85-93, 2000.
32. Pizzinat N, Copin N, Vindis C, Parini A, Cambon C. **Reactive oxygen species production by monoamine oxidases in intact cells.** *NS Arch Pharmacol* **359**: 428-431, 1999.
